

Friday 10th January

Lower Junior news!

'In this room, we don't do **easy** we make easy happen through **hard work and learning!**'

Happy New Year everyone,

We hope you had a great Christmas and caught up on some rest. The children have settled back into school brilliantly and have worked very hard this week. In science, the children have been planning their own investigation to test which material they think will create the most friction. Our new topic for this term is the Stone Age and the children have begun raising their own questions to deepen their understanding of this period of time. The children have also recapped the importance of e-safety and how to remain safe when using technology.

In English, there was an incident involving a woolly mammoth so the children were raising questions and then interviewing Mr Eaton to try and find out more information to help them with their newspaper reports. They have then looked at the features of a newspaper report. In maths, the children have looked at using the formal written method for addition and subtraction.

Year 4 children have also been exploring newspaper reports and in maths have been focusing on data handling.

We are outdoors for PE this half term so children will require warm clothing.

Year 4 children will start swimming on Monday 13th January. Children will need a towel, swimming cap and costume/swimming trunks. If children require goggles, then they can bring them with them too.

Home learning

Home learning for all children is to access TTRockstars and NumBots to improve their knowledge of times tables and basic calculations.

A huge well done to the stars of the week:

Junior 1

Cassy Murrell

Dexter Woodward

Junior 2

Amelia Morgan

Kyle Eccles

Mrs Clarke

Jack Munro

Ava Smith

Mr Jennings, Mr Roberts and Mrs Clarke
