

Infant 5 Weekly Newsletter – Friday 24<sup>th</sup> January 2020

Mrs Barrett, Miss Shallcross

Our class moto: "The greatest teacher, failure is" - Yoda

Well done to last week's Stars  
of the Week:

Sophie Kilshaw

Kai Grugel

### Home Learning task:

This week's home learning task is linked to our Geography. Children will be finding out how humans can help reduce the effects of climate change.

For their home learning, children need to find out what humans can do to help our planet. They could write a list, make a poster or present their finding in any way they wish.

### Diary dates and reminders...

- Friday 7<sup>th</sup> February: Whole School Number Day

Today was Miss Wiswell's last day in Infant 5 and at Cobbs Brow. She will be continuing her teacher training at her second placement school: St Francis of Assisi. Miss Wiswell has been with us since the very first day of year 2 and I know the children will miss her. She has been so kind and caring to every child in our class and we know she is going to be a wonderful teacher. Good luck Miss Wiswell! 😊 xx

Some of the learning that has taken place this week...

In Maths we have revisited 2D and 3D shape. In English we have written a character description of Peter Rabbit. In Science we have grouped animals by their diet and in Geography we have used sources to find out what climate change has done to our planet so far.

Next week...

In English we will be planning and writing an alternative resolution and ending to Peter Rabbit. In Maths we will be revisiting money. In Science we will be learning about our first endangered animal: The pangolin. In Geography we will be finding out what humans can do to reduce the effects of climate change.

Friday's spelling tests will be replaced with times table tests. We will practise different times tables each week. Next Friday, children will be asked questions on the 10x table. They will be asked 5 questions, e.g: 3 x 10, 12 x 10, 10 x 11, 7 x 10
