

Friday 6<sup>th</sup> May

# Lower Junior News!

'We believe in the power of YET!'

Hello everyone,

A short week has flown by, but the children have still worked extremely hard! In English the children have written some wonderful persuasive writing in the form of an advertisement for Italy. In Maths the children have been looking at multiplication so have looked at compensation around the number 19 and the grid method.

Year 4 children have also completed their persuasive writing. In maths they have started fractions looking at equivalent fractions, unit and non-unit fractions before moving onto fraction of amounts.

In science the children have been exploring materials that are opaque, translucent, and transparent. In Geography they were looking at countries around the world focusing on their capital cities. PE the children continued their topic in athletics focusing on jumping. In music the children have been looking at European Music specifically Abba.

**Tempest Photography - Wednesday 25<sup>th</sup> May will be taking extra individual photographs for all year groups. Year 6's and Reception will not have these taken as they had theirs this week.**

**Swimming has now stopped for Year 4's so they no longer need to bring their swimming kits to school.**
